

Please be aware “AS/NZS5601.2 Gas installations Part 2 LP Gas installations in caravans and boats for non-propulsive purposes- Amendment 3” was published yesterday.

A copy is available to be downloaded at NO CHARGE from the SAI Global website.

Further, strong consideration is being given to listing the ‘National Compliance Plate’ in place of the current Queensland compliance plate in relation to caravan gas system installations.

The concept was introduced by the Gas Technical Regulators Committee (GTRC) and goes a long way to traceability of compliance across state and territory borders.
